

Global RA Network Rheumatoid Arthritis Dashboard

The Rheumatoid Arthritis (RA) Dashboard helps patients and other stakeholders understand the facts about the disease and the gaps in the delivery of RA care and treatment in Canada.

Canada

General health information

 Total population **38 million**

 Life expectancy men **80 years¹**

 Life expectancy women **84 years¹**

 Annual health expenditure **\$308 billion³**

 Obesity (% of population) **27%³**

 Smokers (% of population) **15%⁴**

Arthritis in Canada

Total people living with arthritis **6 million⁵** ↗

Women **3.6 million⁵** ↗

Men **2.4 million⁵** ↗

Frequency (per 1,000 persons per year) **200⁷**

Estimated people living with arthritis in 2040 **8 million⁵**

Arthritis cost to society (health care costs and loss to economy) **34 billion⁵**

RA in Canada

Total people living with RA **385,000⁶** ↗

Women **255,000⁶** ↗

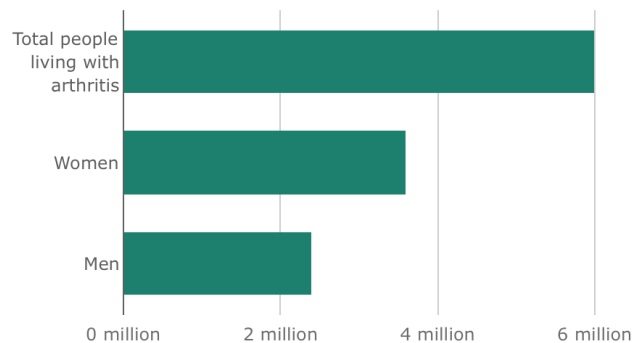

Men **130,000⁶** ↗

Frequency (per 1,000 persons per year) **1⁶**

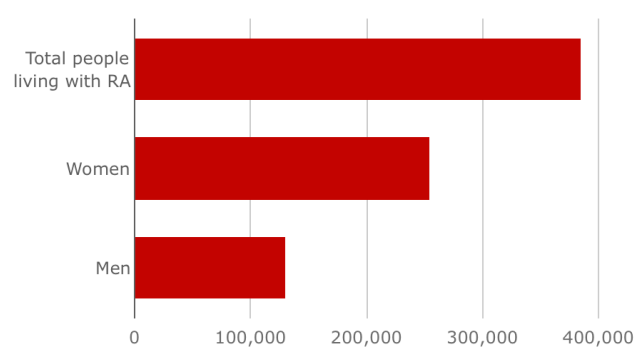

Estimated people living with RA in 2040 **585,000⁸**

RA cost to society (health care costs and loss to economy) **\$6 billion⁸**

Arthritis in Canada

RA in Canada

Models of Rheumatoid Arthritis care

	Standardized model of care	No
	Number of rheumatologists per 75,000 population	0.62⁹
	Time to RA diagnosis after experiencing first symptoms (% of patients within 1 month)	37%¹⁰
	RA patient wait time for first rheumatologist visit (% of patients longer than 3 months)	33%¹⁰

Barriers to virtual care

-  Lack of digital skills
-  Access to internet
-  Cost of electronics
-  Language
